

Ultrasound Academic Fellow (Doctor)

£36,000 per year (pro rata, depending on contracted hours)

Hours:

Full-time or part-time (minimum three days per week)

Location:

Bromley Emergency Training & Research Ltd, London Bridge. SE1 3LN

Role Overview

We are seeking a motivated doctor to join our academic team as an **Ultrasound Academic Fellow**. This is an exciting opportunity for a doctor with a strong interest in ultrasound to develop their own point-of-care ultrasound (PoCUS) skills while gaining experience in teaching and academic work. This might suit an IMG working towards registration or awaiting an NHS role.

You will be involved in a variety of activities, including ultrasound training courses, academic programme support, and ongoing ultrasound research studies. The role is suitable for a doctor looking to strengthen their academic profile and their point-of-care ultrasound expertise.

Key Responsibilities

- **Ultrasound skill development:** Build advanced competence in point-of-care ultrasound through structured training and supervised practice.
- **Teaching support:** Assist faculty with basic point-of-care ultrasound training, supporting learners during hands-on scanning sessions.
- **Academic programme support:** Contribute to the organisation of teaching resources, ensuring the correct materials and equipment are prepared for different programmes.
- **Research:** Take part in ultrasound research projects, including data collection, study administration, and collaboration with faculty on ongoing research activities.
- **Team contribution:** Work flexibly with colleagues to support the smooth running of courses, research, and academic activities.

Person Specification

Essential

- Qualified doctor (UK or international)
- Strong interest in point-of-care ultrasound

Desirable

- Evidence of academic interest
- Proven ability in clinical teaching or medical education
- Experience in point-of-care ultrasound use

Benefits

- Salary: £36,000 per year pro rata
- Six month contract (renewable by mutual agreement)
- Opportunity to develop both clinical ultrasound and academic skills in a supportive environment
- Hands-on experience in teaching and research
- Flexible working (minimum 20 hours per week)
- Meals provided on teaching days
- Based at London Bridge, with access to state-of-the-art ultrasound training facilities and simulators

About Us

Bromley Emergency Training & Research Ltd is a leading medical education company established in 2005. Based near London Bridge Station, we specialise in providing high-quality medical training to doctors and clinicians in acute and emergency care.

We deliver a wide range of ultrasound courses, combining teaching on normal volunteers, scannable manikins, and cutting-edge simulators. Alongside education, we are actively engaged in ultrasound research and academic projects.

How to Apply

Please submit your CV along with a short cover letter explaining your suitability for the role and your interest in ultrasound to recruitment@bromleyemergency.com.
